

Sustainability at SIEGER – responsibility for an environmentally friendly future

Rely on sustainable quality that not only beautifies your patio, but also contributes to environmental protection. With Sieger garden furniture, you can enjoy comfort, style and durability - for a green future in your own garden.

That's why the environment is just as important to us as the quality of our products. For us, **sustainability** is more than just a trend - it is a **holistic concept** that runs through **every step** of our production: from the careful selection of raw materials to the **durability** of our furniture, which will accompany you for many years to come.

Our furniture is designed to be not only functional and beautiful. They also make a positive contribution to **environmental protection**. By making it easy to replace **spare parts** when necessary, we ensure that your furniture always remains in **top condition** - for years to come. In this way, together we help to conserve **valuable resources** and extend the **Lifespan** of your furniture.

We also place great importance to **efficiency and safety**. With certified management systems that award us in the areas of environment, energy and safety, we ensure that both you and our employees benefit from the **best standards**.

And best of all: our tables are **Made in Germany** - for quality you can see and feel.

With our furniture, you can rely on quality and functionality that inspires!

PEFC – Our commitment to sustainable forestry

We are committed to sustainability and are pleased to be able to set an example for our responsible use of forests and resources with PEFC certification. It confirms that the wood we use comes from sustainably managed forests.

We only use PEFC-certified raw chipboard for our vivodur®- and mecalit® table tops. This means that the materials used in your furniture come from forests that are regularly checked for their ecological and social responsibility.

You can therefore be sure that our furniture not only impresses with its quality, but also with its origin - from forests that are protected in the long term and used responsibly. In this way, we contribute together to the preservation of our nature.

FSC chain of custody certification (CoC) – products with teak wood components

With the FSC Chain of Custody (CoC) certification, we focus on transparency and responsibility. This certification ensures that all the wood and paper products we use come from sustainably managed forests - along the entire supply chain.

Das Zeichen für
verantwortungsvolle
Waldwirtschaft

So you can be sure that every material used in our furniture meets the highest environmental and social standards - from the raw material, through the manufacturing process, to the finished product.

ISO 14001:2015 environmental management system – we protect the environment

The ISO 14001:2015 certification demonstrates our strong commitment to environmental protection. The international environmental certification confirms that we are continuously working to reduce our environmental impact and make our processes even more environmentally friendly.

This ensures that we use resources efficiently, minimize waste and reduce emissions. We regularly review our environmental management systems in order to become even better and have a positive impact on the environment.

This certification is our promise to you - for a more sustainable future in which we all take responsibility.

ISO 50001:2018 – Energy efficiency

Our sustainable energy management is underlined by the internationally recognized ISO 50001:2018 standard. It is proof that we are continuously working to optimize our energy consumption and thus reduce both costs and CO2 emissions.

We are therefore constantly improving our energy processes and focusing on a more precise analysis and continuous optimization of our energy use. This enables us to increase both our efficiency and our environmental footprint in the long term.

ISO 45001:2018 – Occupational health and safety

Naturally, occupational health and safety is important to us. The certification according to ISO 45001:2018 confirms that we do everything we can to create a safe and healthy working environment for our employees and partners. We take targeted measures to prevent accidents at work and minimize health risks. For us, safety is a culture that we continuously promote - and we regularly check whether our processes can be improved even further.

ISO 9001:2015 – Quality and customer satisfaction

Your satisfaction and our quality are particularly important to us. That is why we are committed to ISO 9001:2015 certification to provide you with furniture that meets the highest standards and fulfils your expectations.

As a part of this certification, we closely monitor every step - from developing to delivery and are constantly working to improve. So you can be sure that you are not only purchasing high-quality table tops and furniture, but that you can also count on a reliable and customer-oriented service.

Indexstrom Vario Klima Natur – Our contribution to a sustainable energy future

With „Indexstrom Vario Klima Natur“, we at SIEGER rely on sustainable energy sources. This partnership guarantees that we cover 100% of our energy requirements with electricity from renewable sources that is generated using environmentally and climate-friendly technologies.

In this way, we contribute to climate protection together and give you the certainty that we are actively committed to a more sustainable energy supply.

The SIEGER corporate guidelines - the guide to success and responsibility

Clear values that are tangible in everything we do to guide us at SIEGER. They represent our vision and set the standard for our commitment to quality, sustainability and innovation. This means we can always offer you reliable, sustainable and creative solutions.

They are therefore the basis for our success and our responsible actions.

The Code of Conduct - the basis for ethical behaviour

We place great importance to honesty, respect and responsibility - basic values that we have laid down in our Code of Conduct.

It ensures that we always act with integrity, whether in our relationship with you or in our day-to-day activities. In this way, we create a trusting and fair partnership in which transparency always takes center stage.
